# Appendix B:

## Principles of Sportsmanship and Fair Play

### 1 Introduction

Sailing is a self-policing sport, but the enforcement of RRS 2 and RRS 69 is the responsibility of all those involved - competitors and race officials. Allowing unacceptable behaviour to go unchecked is the same as condoning it and does not protect those sailors who have chosen to compete within the rules. The promotion of fair play and sportsmanship is the responsibility of all those involved in our sport.

### 2 Fair Sailing

RRS2 states: 'A boat and her owner shall compete in compliance with recognized principles of sportsmanship and fair play. A boat may be penalized under this rule only if it is clearly established that these principles have been violated. The penalty shall be a disqualification that is not excludable.'

### 3 Dealing with Dissent and Misconduct

RRS 2, Fair Sailing, refers to recognised principles of sportsmanship and fair play. With one exception, 'The Basic Principle', the rules deliberately do not define these principles. It is necessary to take each situation in context.

### 4 Basic Principle

Sportsmanship and the Rules: Competitors in the sport of sailing are governed by a body of rules that they are expected to follow and enforce. A fundamental principle of sportsmanship is that when competitors break a rule they will promptly take a penalty, which may be to retire.

### 5 General Principles

The following principles (which are examples and not a definitive list) are published by the RYA and AY. They are generally accepted as examples of the recognised principles referred to in RRS 2. Any breach of these principles should be considered unsportsmanlike behaviour or misconduct by a skipper and therefore breach of RRS 2 at any Radio Sailing event.

### 6 Respect for the rules

Breaches of this principle include:

- (a) Knowingly breaking a rule and not taking a penalty.
- (b) Deliberately breaking a rule.
- (c) Intentionally breaking a rule to gain an unfair advantage.
